##### **Metro Center Opening**

CS briefly recapped the history of the Center Opening.

Metro distributed pamphlets containing information about the progress of the Purple Line Extension development work.

Metro requested earlier this afternoon to extend Center Opening extension from LA City Council today to extend the Center Opening be kept open for an additional 6 month extension.

Center Opening must stay open until the roof of the station is completed. It provides rebar and concrete in the station. This is done 3-4 days out of every week. Tunneling is ahead of schedule, but the extension is accounting for some delays that may occur, but there is a possibility that another extension will be needed.
