Bike Lane on San Vicente-

CS moves:

Motion: to write or sign on to a letter requesting a parking protected bike lane be installed on San Vicente Bl. between La Brea Ave and Fairfax Ave when that street is repaved, and that if installation of the bike lane is not possible, that repaving be delayed until the mobility plan can be fully implemented.

JK seconds.

Michael Schneider: Mid City West and Carthay Square both signed on to a letter encouraging LA to implement the protected bike lane as laid out in the Mobility Plan. San Vicente, according to traffic data, is "overbuilt", in that it has three lanes but the traffic it sees is lower than that. A protected bike lane would not prevent the community from implementing permit parking.

No neighborhood association has opposed the plan at this time.

CD4 has tentatively expressed support, CD10 will support if the community wants it. The cit

LADOT stripes the street, Street Services paves them.

CS read the letter of support.
